PROFESSIONAL SUMMARY

Software Developer with nearly 2 years of experience designing, developing, and maintaining RESTful web services and microservices using Java, Spring Boot, Spring Data JPA and Spring Security within banking integrations. Adept at writing clean, efficient, and maintainable code, resolving production defects and improving application performance. Well-versed in Agile/Scrum methodologies and collaborative code reviews.

TECHNICAL SKILLS

Programming Languages: Java (Collections, OOP, Java8, Java17, Streams, Exception Handling, Global Exception Handler, Multi-threading, Bean Validation)

Framework: Spring, Spring Boot, Spring Security

Databases: MySQL, Spring Data JPA, SQL, Hibernate ORM, JDBC

Architecture: RESTful APIs, Microservices, Layered Architecture

Messaging: Apache Kafka

Version Control: Git, GitHub, Bitbucket

CI/CD Tools: Jenkins, Maven, Gradle

Testing: JUnit, Mockito, Postman, Swagger/OpenAPI

DevOps/Cloud/AI: Docker, Kubernetes, AWS (S3), Azure AI, Gen AI

Tools: Eclipse, SonarQube, IntelliJ IDEA, VS Code, Jira

EXPERIENCE

Software Developer | Domain: Banking-BFSI

Nov 2024 - July 2026

Tata Consultancy Services – Project: Payment Processing Modernization – Global Payments

Chennai

- Engineered and maintained **10+** Java/Spring Boot microservices for banking rewards and transaction workflows, consistently delivering a **zero-defect track record** across all production releases.
- Recognized as a top performer within a 70+ member banking account team for consistent, **high-quality code delivery**, reflected in Star of the Month / Technical Excellence award recognitions.
- Provided technical guidance and troubleshooting support to team members, helping resolve blockers and backend defects to keep sprint deliverables on track.
- Spearheaded a COBOL-to-Java migration, validating **10,000+ lines** of legacy business logic per sprint with **100% functional equivalence** and **zero regressions**.
- Designed and implemented core business logic in Spring Boot, managing data persistence through Spring Data JPA and Hibernate ORM for high-volume transactional data.
- Strengthened REST API security using Spring Security, implementing authentication and authorization mechanisms to protect sensitive financial data.
- Diagnosed and resolved backend production defects through systematic debugging and root-cause analysis, improving overall application stability.

- Managed source control and collaborative development using GitHub and Bitbucket, including branch strategy and peer code reviews.
- Streamlined build and dependency management with Maven and Gradle, integrating Jenkins into the **CI/CD** pipeline for faster, reliable deployments.
- Containerized applications using Docker and gained hands-on experience with Kubernetes orchestration for scalable deployment.
- Processed and migrated enterprise datasets across DB2, IMS, VSAM, and QSAM systems, using **AWS S3** for secure migration artifact management.
- Collaborated in **Agile/Scrum** ceremonies — sprint planning, stand-ups, backlog grooming, retrospectives — contributing to **on-time sprint delivery**.

INTERNSHIP

Front End Developer – Intern | *Domain: EdTech*Sept 2022- Oct 2024

Missile Ingeniator - Project: *E-learning Web Application - SimplZone*Chennai

- Developed responsive and **user-friendly** web pages using **ReactJS, TypeScript** and Tailwind CSS.
- Created reusable and **responsive UI** components using ReactJS and **Tailwind CSS**.
- Designed and structured web page layouts and user interfaces using Figma before implementation.
- Collaborated on converting **Figma** designs into responsive web interfaces with consistent **UI structure and styling**.
- Worked on improving the usability, responsiveness, and visual consistency of web pages across different screen sizes.

EDUCATION

Bachelor of Technology in Information Technology2020 - 2024

IFET College of Engineering, Villupuram

CGPA: 9.09

CERTIFICATION

- Microsoft Certified: Azure AI Engineer Associate

Nov 2025 - Nov 2026
- Microsoft Certified: Power Platform Developer Associate

Feb 2026 - Feb 2027

AWARDS & ACHIEVEMENTS

- **Technical Excellence Award** – Recognised for technical expertise and improved team delivery | Mar-2026
- **Star of the Month** – Consistently delivered high-quality code and features on time | Dec-2025
- **Star Team Award** – Part of high-performance project team | Aug-2025
- **Learning Achievement Award** – Recognised for continuous learning and technical upskilling | Mar-2025
